

ITC uPDT Product Price List*

The IBM System z Personal Development Tool (zPDT) is a software-based application development tool from IBM for Independent Software Vendors (ISVs) who have a need for a **low-cost** application development and demonstration platform for their commercially available products on System z. The zPDT can enable a virtual System z architecture environment that allows mainframe operating systems, middleware, and software to run unaltered on Intel and Intel-compatible platforms.

UltimatePDT Bundle

The ITC UltimatePDT (uPDT) Bundles provide an all-in-one solution for Independent Software Vendors (ISV). Each system is hardware configured to meet the different workloads and expected performance of an ISV and its users. The system is an IBM approved base system and comes with the zPDT USB hardware key and is fully loaded with the IBM 1090 code, Red Hat or openSUSE Linux, and one IBM z Operating System (z/VM, z/VSE, or z/OS).

The ITC UltimatePDT Bundle comes with the ITC L1/L2 Technical Support annual subscription to assist you with any problems or defects with the products. ITC Tools/Utilities applications are included for managing the uPDT systems.

UltimatePDT Bundle	L01	L02	L03
uPDT Mobile	\$17,452	\$22,702	N/A
uPDT Midrange	\$20,007	\$25,257	\$30,507
uPDT Enterprise	\$24,555	\$29,805	\$35,055

Turning your legacy into a legend.™

ITC Ala Carte Services

For clients looking for a custom zPDT solution, ITC offers individual service options to cater to their needs. Customers can pick and choose the items and services they need without breaking the bank.

IBM zPDT Technology

The IBM zPDT Technology consists of a USB Hardware key and the 1090 software. It comes in either one, two, or three virtual engines. Customers can purchase this option and apply to their own hardware base system and Linux operating system.

IBM zPDT Technology	
1090/L01	\$4,049
1090/L02	\$7,799
1090/L03	\$11,549

UltimatePDT Image

The UltimatePDT Image provides the IBM 1090 code, Red Hat Linux and an IBM System z Operating System (z/VM, z/VSE, or z/OS) ready to install on any 64-bit platform.

UltimatePDT Image	
uPDT Image Single IBM System z Operating System	\$5,000
Additional IBM System z Operating Systems	\$4,500 per OS

Technical Support

ITC will provide Level 1 and 2 Technical Support for the zPDT 1090 hardware and software. This service provides telephone support to identify, diagnose, and resolve any issues concerning the zPDT 1090 licensed internal code, device drivers, device managers, and other utility software. ITC will coordinate any hardware or software issues pertaining to the UltimatePDT base system with its manufacturer.

The ITC Technical Support line is available between 9:00am and 5:00 pm Eastern Standard time, Mondays to Fridays, excluding holidays. Each ITC Technical Support offering is based on the number of virtual engines utilizing the zPDT.

Technical Support	
ITC Technical Support Annual Subscription Single Engine	\$5,000
Each Additional Engine	\$1,500

Optional Services

Our ITC Optional Services allows us to further assist you with your needs. ITC can provide Installation and Integration, Migration, and Training Services all within your budget. Please contact us at sales@p390.com so we can begin working with you.
