

System uPDT™

Ultimate Personal Development Tool

Product Price List

The IBM® System z™ Personal Development Tool (zPDT™) is a software-based application development tool from IBM for Independent Software Vendors (ISVs) who have a need for a low-cost application development and demonstration platform for their commercially available products on System z. The zPDT can enable a virtual System z architecture environment that allows mainframe operating systems, middleware, and software to run unaltered on Intel® and Intel-compatible platforms.

System uPDT

Information Technology Company (ITC)'s System uPDT provides an all-in-one solution for ISVs. Each system is hardware-configured to meet the different workloads and expected performance of a particular ISV and its users. The system is an IBM-approved base system and comes with the zPDT USB hardware key, and is fully-loaded with the IBM 1090 code, Red Hat® or openSUSE® Linux®, and one IBM z Operating System (z/VM®, z/VSE®, or z/OS®).

System uPDT comes with ITC's L1/L2 Technical Support annual subscription to assist you with any problems or defects with the products. ITC Tools/Utilities applications are included for managing your System uPDT solution.

ITC Ala Carte Services

For clients looking for a custom zPDT solution, ITC offers individual service options to cater to their needs. Customers can pick and choose the items and services they need without breaking the bank.

IBM zPDT Technology

The IBM zPDT Technology consists of a USB Hardware key and the 1090 software. It comes in one, two, or three virtual engines. Customers can purchase this option and apply it to their hardware base system and Linux operating system.

IBM zPDT Technology	
1090/L01	\$ 4,049
1090/L02	\$ 7,799
1090/L03	\$ 11,549

UltimatePDT Image (uPDT Image™)

uPDT Image provides the IBM 1090 code, Red Hat or openSUSE Linux, and an IBM System z Operating System (z/VM, z/VSE, or z/OS) ready to install on IBM-recommended 64-bit platforms. This requires the IBM zPDT technology.

UltimatePDT Image	
uPDT Image Single IBM System z Operating System	\$5,000
Additional IBM System z Operating Systems	\$4,500 per OS

Technical Support

ITC provides Level 1 and 2 Technical Support for uPDT solutions (System uPDT and uPDT Image). This service provides telephone support to identify, diagnose, and resolve any issues concerning the zPDT 1090 licensed internal code, device drivers, device managers, and other utility software. ITC coordinates any hardware or software issues pertaining to the uPDT base system with its manufacturer.

The ITC Technical Support line is available between 9:00am and 5:00 pm Eastern Standard Time, Mondays to Fridays, excluding holidays. Each ITC Technical Support offering is based on the number of virtual engines utilizing the zPDT.

Technical Support	
ITC Technical Support Annual Subscription Single Engine	\$5,000
Each Additional Engine	\$1,500

Optional Services

ITC Optional Services allow us to further assist you with your needs. ITC can provide Installation and Integration, Migration, and Training Services – all within your budget. Contact us at sales@p390.com so we can begin working with you.
